

SINGLE FAMILY HOMES

AEROBARRIER™

AFFORDABLE AIRTIGHTNESS

Seal your entire building, all-at-once, with our award-winning process that is trusted by builders across the country. Awarded 'Most Innovative Product' of 2018, AeroBarrier will help take your homes to the next level of comfort & performance. Here's how we do it:

- 1 PREP**
Technicians cover any intentional openings, such as vents, drains, and windows.
- 2 PRESSURIZE**
Blower door brings the unit to pressure, forcing air out of all the leaks.

- 3 SEAL**
Self-guided sealant finds the leaks and seals all of the nooks & crannies.

**SEAL
ANY HOME
ANY SIZE
GUARANTEED**

NEVER FAIL BLOWER DOORS

We guarantee that homes sealed with AeroBarrier are airtight enough to satisfy energy code requirements, no matter how strict.

Simplify your process. AeroBarrier is the affordable air barrier solution with a 100% guarantee to pass code.

EXTRA COMFORT

Homeowners buy comfort. An airtight home keeps a more constant temperature throughout the house and eliminates hot and cold spots.

WHAT IS AEROBARRIER?

AeroBarrier is an automated process for plugging all of the air leaks in your building. Using a high-powered fan, we blow a 40 mph wind into the building. As the wind blows out of the cracks, we fog the interior with an airborne sealant, which plugs the holes as it gets forced out.

THE PROCESS

STEP 1

BLOW 40 MPH WIND into the building using a high-powered fan. The pressure forces the wind out of all the holes, cracks, and gaps of the building.

STEP 2

FOG THE INTERIOR using sprayers placed throughout the building. As the sprayers mist the sealant, the wind forces sealant out of all the holes, cracks and gaps.

STEP 3

PLUG THE AIR LEAKS in the entire building as the sealant gets forced out, sealing gaps as thin as a human hair or as thick as a 1/2 inch.

STEP 4

SEAL THE ENTIRE BUILDING all-at-once with our patented, computerized process. Typical installations take less than 2 hours, and with prep and clean up we can be in-and-out before lunchtime.

THE SEALANT

- > Red List-free
- > GREENGUARD Gold Certified
- > Dries in 30 minutes

**DOES NOT
STICK**
TO WALLS, WINDOWS OR DOORS
